

Abstract of the Disclosure

An interactive television program guide system based on multiple user television equipment devices in a single household is provided. The system  
5 provides a user with an opportunity to adjust program guide settings with a given one of the interactive television program guides. The system coordinates the operation of the interactive television program guides so that the program guide settings that were adjusted  
10 with the given interactive television program guide are used by the other interactive television program guides. Program guide setting include features related to setting program reminders, profiles, program recording features, messaging features, favorites  
15 features, parental control features, program guide set up features (e.g., audio and video and language settings), etc. The operation of applications such as web browser applications, home shopping applications, home banking applications, game applications, etc. may  
20 also be coordinated.
